Bio

Thabisa is a sensational rockstar who fuses world music with genres such as folk, jazz, soul, RnB and Afro Pop and blends it into an atomic fuse of colorful sounds of joy, hope, longing and reminiscent with a fresh touch that remains long after she has connected with her audience. This former South African Idols runner-up with has two albums "Eyoididi, 2015", "The Journey, 2013" and a single " Sweet Sorrow, 2020" that seek a peace of mind in a chaotic world riddled with ills of the world and there, Thabisa anchors herself and calls for calm through the six-syllable Sanskrit mantra "Om mani padme hum". This bi-continental artist is preparing for her New England Tour and working towards her third offering. An album she calls "her becoming and being" as she promises to "go deeper than flesh and to face self in order to inspire those who feel like giving up."
